## The GENDER 101 digital tools

The Digital Tools are breakthrough tools that help educational environments handle and understand gender diversity and identity. These unique tools provide critical tools, insights, and tactics to help foster gender debates, challenge established conventions, and promote a more inclusive view of gender identity. By combining instructional resources, interactive modules, and professional guidance, the Digital Tools provide teachers, students, and educational institutions with the knowledge they need to create an inclusive and respectful learning environment. The holistic approach clarifies complicated gender ideas and promotes the well-being of all students, especially those investigating or identifying with non-traditional gender roles. The Digital Tools seek to demolish stereotypes, encourage acceptance, and guarantee that everyone feels recognised and respected in education.

## GENDER 101 learning for parents in all project countries

The Masterclasses have taken place during summer 2023 with parents in the six partner countries. Whilst some partners have encountered difficulties in recruiting parents to attend, once the sessions were held parents felt comfortable and safe and realised they were attending a session in an open environment where they could learn, talk and ask.

## Feedback from the experts in all project countries on the GENDER1 101 learning

The content of all Intellectual Outputs have been reviewed by experts in the respective Partner countries, including the content of the digital tool. Amongst the feedback received from the various European experts about the digital tool content is that digital tool includes clear, practical and factual information which has been researched. Experts also reflected on how useful this tool is as it answers crucial questions about gender diversity.

Some feedback includes:

*"Useful to create a safe space"*

*"The content can contribute to expanding knowledge about diversity and better understanding of experiences"*

# The programme of events in Malta, Lithuania, Poland, Ireland, Italy and Croatia

The Multiplier events took place in the five partner countries Lithuania, Poland, Ireland, Italy and Croatia in April 2024. The multiplier events were an opportunity to present the outcomes of the project and particularly launch the digital tools.

The final conference event will be held in Malta, as the project coordinator, on the 14 May 2024.
